Giovanni Moscato

Computer Science Student

HERE'S MY STORY:

I started programming at Elgin Community College where my passion for the field really started. Originally I was going to pursue VFX. I have always had a love for art and music, but I also wanted to work in the tech industry. My dream developer career would involve combining technology and art together to create amazing applications or systems.

WORK EXPERIENCE

Discover Financial Services (Code_Orange Internship)

MAY 2020 - OCTOBER 2020 DEKALB, IL

- Through the Code_Orange program I tested, developed, and show-cased numerous full-stack web applications in a team setting. The app's focused on fast and secure development through OWASP standards mainly using Spring and React as part of the Tech Stack. Queried and developed databases for the projects using MySQL and H2 Hibernate. Developed and then deployed to cloud computing software's PCF and AWS

Target/ Team member

DECEMBER 2019 - CURRENT DEKALB, IL

- At Target I follow their core values which are to deliver outstanding value, continuous innovation, and an exceptional guest experience. This includes data and inventory management, floor planning, and sales plan execution.

Aeromotive Services Inc / Web design and marketing assistant

MAY 2017 - OCTOBER 2018 ELGIN, IL

- Throughout my time at Aeromotive Services I designed and developed their child company's website. Other opportunities I was in charge of included producing instructional videos and marketing material.

EDUCATION

Northern Illinois University / Computer Science Undergrad

CURRENTLY ATTENDING DEKALB, IL

- Bachelor of Computer Science; Cumulative GPA: 3.3/4.0 Dean's List (2018, 2019); Expected Graduation Date: 12/13/2021 (Fall)

Elgin Community College / Associates in science (AS)

AUGUST 2017 - MAY 2019 ELGIN, IL

- Completed AS degree (as of 12 / 31 / 2019)

EXTRA CURRICULAR EXPERIENCE

MAJOR LEAGUE HACKATHON EVENTS (MLH)

PARTICIPATED IN MULTIPLE HACKATHONS INCLUDING INTERNATIONAL TEAM PROJECTS

- My Dev-post account where the project(s) can be viewed : <https://devpost.com/codingcodewhilegoofin>

OPEN SOURCE CONTRIBUTION / PERSONAL PROJECTS

MULTIPLE TEAM BASED AND PERSONAL PROGRAMMING PROJECTS

- My source code / contributions can be found on my GitHub page for almost all large projects I have ever worked on

GENERAL PROGRAMMING EXPERIENCE:

- Experience in Full-Stack development / Web Design
- Some experience in C++ , Java , Python, Unix, Assembly, and other languages
- Some experience with database management , algorithm analysis, data structures, and memory management
